SOFTWARE ENGINEER

A highly motivated individual, eager to learn and experiment with modern technologies, ready to take on new challenges while being proficient in communicating with teams & and clients.

EXPERIENCE

December 2022 - Present
Frontend Developer
PHP: Intern at the Mind Gauge
SQL: Intern at the Mind Gauge

MAJOR PROJECTS

Portfolio Website

In this project, we leverage the power of Next.js, React.js, and Tailwind CSS to craft a dynamic and visually appealing portfolio website. Next.js provides a robust framework for building React applications with server-side rendering and routing, ensuring optimal performance and SEO.

Tech & Skills: React.js, Next.js, Tailwind CSS

Blog website

We create a contemporary and responsive blog that seamlessly integrates functionality and aesthetic appeal, ensuring an enjoyable and immersive reading experience for our audience. **Using Nex.js, React.js, Typescript Tailwind CSS**
